Professional Experience:

11+ years of Oil & Gas industry experience

August 2008 – Current

Innovative Geo-Tech Resources, LLC
Geotechnical Consulting/Owner

A few current clients:

Layne Energy – Jason Burris
The Discovery Group – Bob & Sue Cluff
Sherwin GeoEdges – Joel Harding & Mike Sherwin
White Eagle Exploration – Marshall & Jane Crouch

- Consulting Geoscience/Geophysical Technician (in-house and out-of-house)
 - ◆ Database creation and clean up (Petra, SMT, etc.)
 - ◆ Data gathering and acquisition digital and hardcopy
 - ◆ Importing and exporting data into and between projects and software
 - ◆ Custom Map, Cross Section, and Montage Creation
- Petra Training
 - ◆ In house training focusing on clients data and projects
- Map Digitizing
 - ◆ Geologic, geophysical, and lease data
 - ◆ Lease Mapping

Professional Experience (cont'):

January 2007 – July 2008

Cimarex Energy Company, Denver, CO Geoscience Technician

- ◆ Geologic Technician for New Ventures group
- ◆ Creating and maintaining multiple geological databases
- ◆ Geologic mapping in Petra and ArcView
 - ◆ Structure and isopach maps, lease maps, and industry activity
- Importing and exporting of digital data including; las files, rasters, shape files, well, production, digital topographic images, landgrid and culture.
- Building cross-sections
- ◆ Creating and maintaining SMT projects
 - ◆ Importing and exporting of 2-D and 3-D seismic, contours, faults, and other geophysical data between SMT and Petra

June 2004 – December 2006

Fidelity Exploration & Production Company, Denver, CO Geoscience Technician

- ◆ Lead technician for the two major asset teams (Northern Rockies and Powder River Basin) as well as various prospect areas.
- ◆ Lead technician for all geophysical projects
- ◆ Creating and maintaining geological databases.
- ◆ Geologic mapping in Petra and ArcView
 - ◆ Geo-referencing, Structure and isopach maps, Federal oil & gas lease maps, Production bubble maps
- Cross-sections
 - ◆ Picking tops
- Importing and exporting of digital data including; las files, rasters, shape files, well, production, digital topographic images, Landgrid and culture.
- Creating synthetics
- Creating and maintaining SMT projects
- Importing and exporting of 2-D and 3-D seismic lines, contours, faults, and other geophysical data between SMT and Petra

Erin L. Capra

February 2003 – June 2004

Fidelity Exploration & Production Company, Denver, CO
Jr. Geoscience Technician

- ◆ Lead for CBM asset as well as various other prospect areas.
- ◆ Creating and maintaining geological databases.
- ◆ Geologic mapping in Petra and Arcview
 - ◆ Geo-referencing
 - ◆ Structure and isopach maps
 - ◆ Federal oil & gas lease maps
 - ◆ Production bubble maps
- Creating cross-sections
- Importing and exporting of digital data including; las files, rasters, shape files, well, production, digital topographic images, Tobin grid and culture.

May 2001 – February 2003
